ABOUT US

The Academy for International Science and Research (AISR) is an international centre of excellence for STEMM education, developing critical thinking and problem solving skills in our students. AISR is the only private Academy of its kind in Ireland, using the latest teaching methodologies to excite and ignite curiosity in STEMM subjects.

All our programmes favour practical application and have been designed to reflect the latest needs and requirements of professional organisations; meaning students will be vocationally competent and ready for work. Such emphasis on practical skills develops vocational competencies and all qualifications are UK accredited/endorsed.

We are accredited by the Accreditation Service for International Schools, Colleges and Universities (ASIC).

The Academy is in partnership with the Management and Science University of Malaysia (MSU). Our partnership with the Management and Science University (MSU) providing the opportunity to study on one of MSU's degrees in the UK.

AISR is an Open College Network NI Centre (OCN NI) which is a UK Regulated Awarding Organisation.

We are a member of the Information Commissioner Office (ICO). For further details on our memberships and partners please [click here](#).

AISR's subsidiary, the Academy for Technological Innovation and Research (ATIR), develops cutting edge, bespoke interactive education technology for academia, K-12 and higher educational institutions. This education technology involves 3D learning packages and the use of virtual reality to simulate aspects of the industrial environment. We are in a process of developing the next generation of educational technologies. Our educational solutions allow students to become more confident and achieve higher results in their respective disciplines, provide them with cognitive improvements, personalised learning and continuous development.

OUR VISION

Our Mission:

To strive for academic excellence and deliver first class, high quality local, national and international STEM training and education to students no matter where they reside. In skilling up the next generation, we want to make an important contribution to the health and wealth of communities and economies locally and across the world.

Our Vision:

Enabled and enhanced by digital innovation and educational technology development, we want to break down geographical barriers by exporting STEM courses of high educative and economic value, to upgrade skills and enhance the progression of student education throughout the world.

OUR CAMPUS

AISR Campus is located in Derry, also known as Londonderry. It is the second-largest city in Northern Ireland and it is known for the intact 17th-century Derry's Walls with 7 gates, which were built by the Irish Society as defences for early seventeenth century settlers from England and Scotland.

AISR's campus is based on Clarendon street with red brick Georgian style architecture. The oldest house in the street is known as 'Foyle Cottage' and was built in 1815. Clarendon Street is part of the Heritage Trail, which has identified 100 sites of particular historic significance from Cathedrals and Churches, Parks and Villages, Murals and Monuments all within the City of Derry. The campus is near by shops, pharmacies, restaurants and medical centres.

ACHIEVE YOUR GOALS

There are no boundaries to your success, whether it is to learn something new, to set your path on a new career or to increase your salary. You can achieve your goals with AISR.

Employers expect you to demonstrate problem solving and critical thinking skills when you leave college or university and to be able to apply your academic knowledge.

Our Diploma programs enable you to develop practical and employability skills, these skills are highly valued by employers and are required by the modern industry. At the end of our programs you will be ready to enter employment or progress to a related degree course.

WHY STUDY WITH AISR?

Studying with AISR means:

- You achieve a vocational professional qualification that is recognised worldwide
- You receive an excellent, first class education with all the advice and support needed from initial enquiry to course completion
- You will be more employable because you will learn skills which develop your critical thinking as you will be taught using problem based learning methods. These skills are valued by STEMM employers who will recognise your skills above those who have not been taught in this way.
- You network with other students and build professional relationships
- You make an investment in yourself now and you will change your future

AISR is a centre of excellence for Applied Sciences, all of our courses are designed with clear lines of sight to university and the work place. We are the right choice for your chosen field of study with:

- modern learning environment
- additional learning support
- enrichment opportunities
- centre for lifelong learning
- international study opportunities

Get Ahead of the Game and Change Your Future

ACADEMIC FACULTIES

APPLIED LEARNING

MODULES: Maths, Physics, Biology and Chemistry

Our skills modules act as a personal tutor and enable you:

- to learn the application of mathematics and science,
- promote active and meaningful learning, providing you with the ability to understand and apply the gained knowledge to concepts being studied,
- to find solutions and to promote skills in problem-solving tasks.

The fun on-screen simulations, questions and tests will enable you to expand your knowledge and improve your academic performance. You can study at your own pace, anytime, anywhere.

You will be able to assess yourself after each module and there will be an exam at the end. You can contact our lecturers via email in case you have any difficulties with a certain topic.

DIPLOMAS AND COURSES

FACULTIES:

Science
Teaching and Lecturing
Information Technology
Digital Media
Business Management
Business Administration
Careers and Employability
Hospitality

Our high-quality programs are designed to reflect the requirements of professional organisations and meet the needs of each sector. AISR aims to develop sector related practical skills, knowledge and understanding in order to have the required abilities for the workforce.

You will benefit from blended learning - combination of online and traditional classroom teaching – provided by highly qualified tutors who have gained experience in Science, Technology, Engineering, Mathematics and Medicine (STEMM) education, Pharmaceutical Manufacturing and Quality Control.

LEARNING DISABILITIES

AISR warmly welcomes students with learning disabilities and are committed to promoting equality of opportunity. The Academy seeks to maximise students learning experience by complying with The Special Educational Needs and Disability (NI) Order 2005 (SENDO), which extends protection from disability discrimination to people being educated. The Academy's aim is to develop students' individual strengths and encourage them to achieve their full potential in a safe and supportive environment, therefore we offer additional support to students in the following forms:

- One-to-one tuition for specific learning difficulties
- Diagnostic tests for specific learning difficulties
- Access to braille versions of text
- Sign language interpreters
- Teacher courses for various learning disabilities

EDUCATIONAL TECHNOLOGY

AISR develops cutting edge, bespoke interactive educational technology for academia, industry, K-12 and higher educational institutions including augmented reality (AR), mobile gaming and the use of virtual reality (VR) to simulate aspects of the industrial environment.

AISR VR lab provides you with an immersive learning experience with step by step guides and tips so you will be fully prepared and confident to walk into a real lab. The VR lab is also available in desktop and app version, without the need for VR glasses.

You will simply point your phone to our AR posters to learn more about science topics and inventors. These posters can turn classroom walls into an interactive learning resource. Posters come with our free AR app.

Master of Science (Applied Science)

Awarding Body

Course Description

Applied Science Master's programme at MSU equips you with flexibility in your future career choice. You will be able to explore a range of scientific interests, from food technology, biomedicine and nutrition to pharmaceutical. The programme focuses on developing your analytical as well as critical evaluation skills to enhance decisionmaking and problem-solving abilities in leading today's technical enterprises. At the end of the programme, students are expected to possess the skills and also the attitudes desirable in professional research or policy implementation.

Method of Learning

Blended Learning and Traditional face-to-face lessons

Entry Requirements:

Bachelor's degree (MQF Level 6) with 2.75 CGPA, or equivalent as deemed by MSU Senate; CGPAs below 2.75 but above 2.50 may be accepted subject to rigorous evaluation by MSU; CGPAs below 2.50 may be accepted subject to accompaniment of five (5) years working experience in relevant fields.

Progression Opportunities

can progress to doctoral studies, to further their understanding of the subject, or choose to enter the workplace instead. Depending on the applied sciences path they have chosen, graduates can go on to find employment in forensic genetics, crime scene investigation, conservation, environmental management, marine science, clothing design, and a range of other professions.

BSc (Hons) in Bioinformatics

Awarding Body

Course Description

Bioinformatics is an area of study which intersects biotechnology and computing science. It applies computer science and information technology to processing of biological data. This is a field with enormous possibilities in advancing medicine, agriculture and other biology related areas. With the support of our lecturers, your analytical and problem-solving skills will be enhanced through collaborative, groupbased assessments and projects. Expand your learning horizon by participating in the MSU Global Mobility Programme, which lets you study for one semester or more overseas at MSU's international partner universities. In your final year, you will undertake an industrial placement to gain real working experience.

Entry Requirements:

BGCE A-Level with minimum graduation in three (3) subjects or equivalent. For international students an IELTS score of 5.5 is required.

If you do not have formal qualifications at Level 4 but can demonstrate extensive relevant work experience and/or achievement on a range of professional qualifications in Science are also welcome to apply.

Progression Opportunities

The field of bioinformatics combines biology and computer science, therefore bioinformatics specialists can find jobs working in biological research, pharmaceuticals, and medical technology, among other fields.

Method of Learning

Blended Learning and Traditional face-to-face lessons

MEDI PREP PROGRAMME

Course Description

The Medi-Prep Programme is a 9-month programme designed to prepare aspiring international medical, nursing and dentistry students for application to UK universities. Through the Medi-Prep programme you will be enrolled on to an OCN Level 4 Diploma in Medical Science which may help you to graduate onto a pre-Medical and pre-Dental level course or a Nursing degree programme in a UK university.

This diploma is equivalent to a first year of an undergraduate degree (candidates who already possess foreign qualifications which are deemed acceptable by UK Medical and Dental Schools may get entry to Level 1 of a Medical or Dental Degree programme after successfully completing all the requirements of the Medi-Prep and satisfactory completion of the UKCAT examination and interview(s) set out by the University). Students will also receive intensive instruction in preparation for the UKCAT tests and the university interviews. Throughout the 9-month period they will be given the opportunity to undertake study visits to health centres, dental practices and hospitals as well as receiving specialist training days in a range of clinical practices and technologies. Advice and assistance will be provided on an ongoing basis in selecting universities and completing the UCAS application forms.

Entry Requirements:

'A' grades at A Level (including chemistry or biology) or equivalent, or an IB score of 38, or equivalent scores in other examination plus an overall IELTS score of 7 with a minimum of 6.5 in each component*

* If you do not have an overall IELTS score of 7, but you do have a minimum of 6.0 in each component, you can take an add-on English Language module.

Call Us: +4477-5983-1432

LEVEL 4 DIPLOMA IN MEDICAL SCIENCE

Awarding Body
ocn
northern ireland
Accredited Course

Course Description

This advanced practical based course is for those students who wish to pursue a career in the Medical Sector including medical science, biomedical science, pharmacy and nursing. You will complete projects and assignments based on real workplace situations and activities. At the end of the course you will be ready to enter employment or progress to a related degree course.

What Will I Study?

- Biochemistry and Human Nutrition
- Biology and Disease
- Cell Biology
- Communications and IT for Applied Science
- Evidence Based Professional Practice
- Human Physiology and Anatomy

Method of Learning

Blended Learning and Traditional face-to-face lessons

Entry Requirements:

12 Standard or GCSE English and Mathematics grade A - C and 2 A Levels A - D or Level 3 Diploma MP or Extended Diploma PPP in a Science discipline or equivalent. Qualifications deemed equivalent by the Examination Committee will also be accepted. For international students an IELTS score of 5.5 is required.

If you do not have formal qualifications at Level 3 but can demonstrate extensive relevant work experience and/or achievement on a range of professional qualifications in Science are also welcome to apply.

Progression Opportunities

This qualification enables progression to undergraduate study in medical sciences area such as medicine, dentistry, physiotherapy etc. It will also assist learners to pursue a career and / or further training in a range of medical and bio sciences and/or health and social care occupations.

Call Us: +4477-5983-1432

LEVEL 2 EXTENDED CERTIFICATE IN APPLIED SCIENCE

Awarding Body
ocn
northern ireland
Accredited Course

Course Description

This qualification will provide learners with the opportunity to develop their knowledge, skills and understanding in a range of key concepts within Biology, Chemistry and Physics and builds upon the Key Stage 3 science curriculum. This qualification will allow learners to further develop the following skills:

Cross-Curricular Skills:

- communication
- using mathematics
- using ICT Thinking

Skills and Personal Capabilities:

- self-management
- working with others
- problem solving

What Will I Study?

- Physical Processes
- Life Processes and Living Things
- Materials and their Chemical Properties
- Chemical Analysis and Detection
- Mathematics for Science
- Planning, Conducting and Reporting on
- Scientific Projects

Entry Requirements:

There are no formal restrictions on entry. However, learners must be at least 14 years of age and have a level of skill required at Key Stage 3 in the following areas:

- Science
- Numeracy
- Literacy
- Communication

For international students an IELTS score of 5.5 is required.

Method of Learning

Blended Learning and Traditional face-to-face lessons

Progression Opportunities:

This qualification will enable learners to progress to further qualifications in applied science at a higher level; to study particular aspects of science in greater depth and to acquire knowledge and skills that would support progression to employment within the STEM sector.

Apply Online: www.aisr.org.uk

Email Us: info@aisr.org.uk

Call Us: +4477-5983-1432

LEVEL 2 CERTIFICATE IN APPLIED SCIENCE

Awarding Body
ocn
northern ireland
Accredited Course

Course Description

This qualification will provide learners with the opportunity to develop their knowledge, skills and understanding in a range of key concepts within Biology, Chemistry and Physics.

What Will I Study?

- Physical Processes
- Life Processes and Living Things
- Materials and their Chemical Properties

Progression Opportunities:

Learners will be able to progress to further qualifications in applied science at a higher level or to study particular aspects of science in greater depth. It also provides learners with the opportunity to acquire knowledge and skills that would support progression to employment within the Science Technology Engineering and Mathematics (STEM) sector.

Entry Requirements:

There are no formal restrictions on entry. However, learners must be at least 14 years of age and have a level of skill required at Key Stage 3 in the following areas:

Science
Numeracy
Literacy
Communication]

For international students an IELTS score of 5.5 is required.

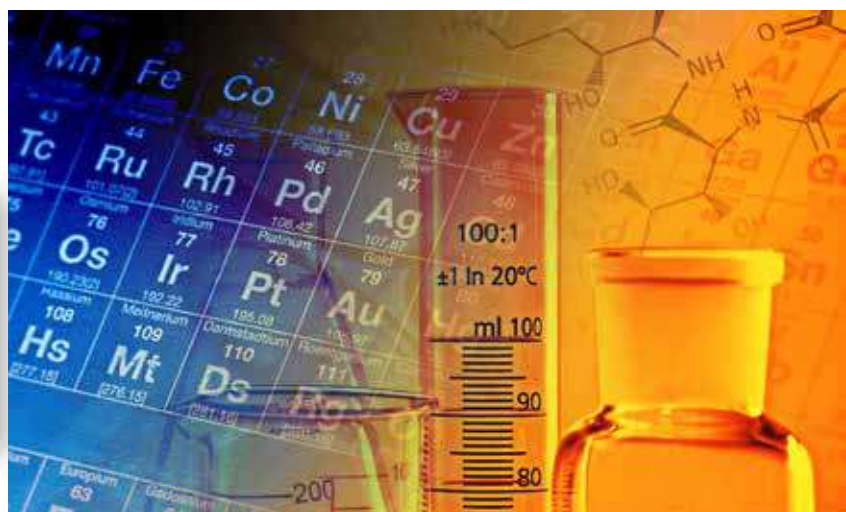

Method of Learning

Blended Learning and Traditional face-to-face lessons

Apply Online: www.aisr.org.uk

Email Us: info@aisr.org.uk

Call Us: +4477-5983-1432

LEVEL 2 CERTIFICATE IN SKILLS FOR EMPLOYMENT AND STUDY IN SCIENCE AND ENGINEERING

Awarding Body
ocn
northern ireland
Accredited Course

Course Description

This qualification is designed to provide learners with essential knowledge and skills that will support their progression into employment in roles such as a research scientist, project engineer and other specialisms within science and engineering or progression on to higher education within science and engineering. Learners will acquire an understanding of distinct vocational areas within the science and engineering and develop a range of practical and cognitive study skills. Additionally, learners will have the opportunity to enhance their Maths skills.

What Will I Study?

- Introducing Physical Science
- Forensic Science
- Working in Science and Technology
- Practical Scientific Project
- STEM (Science, Technology, Engineering, Mathematics) Enrichment Activity
- Research Skills
- Critical Thinking Skills
- Undertaking a Research Project
- Calculations
- Science Skills

Apply Online: www.aisr.org.uk

Email Us: info@aisr.org.uk

Call Us: +4477-5983-1432

Entry Requirements:

There are no formal entry requirements for learners undertaking this qualification. This qualification is suitable for learners aged 16 years or over. For international students an IELTS score of 5.5 is required.

Method of Learning

Blended Learning and Traditional face-to-face lessons

Progression Opportunities

Learners will gain the knowledge and skills required to progress on to science and engineering related level three learning programmes. The qualification will support progression onto an appropriate Level 3 Access to Higher Education Diploma.

LEVEL 1 CERTIFICATE IN RECYCLING AND WASTE MANAGEMENT

Awarding Body
ocn
northern ireland
Accredited Course

Course Description

This Certificate provides underpinning knowledge and skills relating to recycling and waste management operations. The qualification is targeted at potential learners who are either working in, or intending to work in, the recycling and waste management industry sectors.

What Will I Study?

- Collect recyclables and other materials
- Assist in the safe operation of work vehicles during recycling operations
- Prepare plant and equipment for processing recyclables and other materials
- Assist in the maintenance of plant and equipment for processing recyclables and other materials.

Entry Requirements:

There are no formal restrictions on entry. However, learners must be at least 16 years of age to achieve this qualification. For international students an IELTS score of 5.5 is required.

Method of Learning

Blended Learning and Traditional face-to-face lessons

Progression Opportunities

This qualification enables progression to further training in this area.

Apply Online: www.aisr.org.uk

Email Us: info@aisr.org.uk

Call Us: +4477-5983-1432

LEVEL 2 AWARD IN MATHEMATICS SKILLS

Course Description

This qualification is aimed at:

- Learners who are returning to learning and need to gain confidence in Mathematics skills before progressing to further study, for example, adults returning to learning on Access programmes or teacher training qualifications where there is a requirement for a specific standard of Mathematics may undertake these qualifications to develop underpinning Mathematics skills before completing the specified Mathematics qualifications required for their course.
- Learners who have progressed from Entry Level Mathematics qualifications and need additional time to prepare before undertaking full Mathematics qualifications.

What Will I Study?

- Action Planning to Improve Performance in Mathematics
- Calculations with Sets of Data
- Using 2D Shapes in Practical Contexts
- Using Calculations: Multiplication and Division of Whole and Decimal Numbers
- Ratio and Direct Proportion

Entry Requirements:

Although there are no specific entry requirements for the qualifications, initial assessments should indicate that the learner is working at the level of the qualification chosen with skills gaps that require support before progressing to full Mathematics qualifications or further study. This qualification is suitable for learners aged 16 years and over. For international students an IELTS score of 5.5 is required.

Method of Learning

Blended Learning and Traditional face-to-face lessons

Progression Opportunities

This qualification enables progression to employment, further learning opportunities within employment, or further study.

Apply Online: www.aisr.org.uk

Email Us: info@aisr.org.uk

Call Us: +4477-5983-1432

LEVEL 1 AWARD IN MATHEMATICS SKILLS

Course Description

This qualification is aimed at:

- Learners who are returning to learning and need to gain confidence in Mathematics skills before progressing to further study, for example, adults returning to learning on Access programmes or teacher training qualifications where there is a requirement for a specific standard of Mathematics may undertake these qualifications to develop underpinning Mathematics skills before completing the specified Mathematics qualifications required for their course.
- Learners who have progressed from Entry Level Mathematics qualifications and need additional time to prepare before undertaking full Mathematics qualifications

What Will I Study?

- Action Planning to Improve Performance in Mathematics
- Calculating Using Decimals in Everyday Contexts
- Calculating Using Percentages
- Calculating Volume, Area and Perimeter
- Understanding Place Value in Decimal Numbers

Apply Online: www.aisr.org.uk

Email Us: info@aisr.org.uk

Call Us: +4477-5983-1432

Entry Requirements:

Although there are no specific entry requirements for the qualifications, initial assessments should indicate that the learner is working at the level of the qualification chosen with skills gaps that require support before progressing to full Mathematics qualifications or further study. This qualification is suitable for learners aged 16 years and over. For international students an IELTS score of 5.5 is required.

Blended Learning and Traditional face-to-face lessons

Progression Opportunities

This qualification enables progression to employment, further learning opportunities within employment, or further study.

ENTRY LEVEL 3 AWARD IN MATHEMATICS SKILLS

Awarding Body
ocn
northern ireland
Accredited Course

Course Description

This qualification was designed to provide learners with a flexible route to developing the skills in Mathematics which will enable them to build confidence and provide a foundation for further study towards a GCSE in Mathematics, a Functional Skill in Mathematics, a move into employment or as a stepping stone to higher level study.

What Will I Study?

- Planning to Improve Performance in Mathematics
- Applying Fraction Skills
- Applying Number, Addition and Subtraction Skills
- Multiplication and Division of Whole Numbers
- Measure: Distance and Length
- Time and Temperature

Entry Requirements:

There are no formal entry requirements for learners undertaking this qualification and it is suitable for learners aged 16 years and over.

For international students an IELTS score of 5.5 is required.

Method of Learning

Blended Learning and Traditional face-to-face lessons

Progression Opportunities

This qualification enables progression to further learning opportunities within mathematics study.

LEVEL 1 AWARD IN ECONOMIC WELL-BEING AND FINANCIAL CAPABILITY

Awarding Body
ocn
northern ireland
Accredited Course

Course Description

This qualification is related to the national programme of study for Economic Wellbeing and Financial Capability as part of the PSHE education curriculum at Key Stage 4. The qualification also provides a significant amount of knowledge, understanding and/or skills development that underpin other strategies including supporting the:

- Every Child Matters outcomes
- Social and Emotional Aspects of Learning (SEAL)
- Personal, Learning and Thinking Skills (PLTS) Framework
- Cross-curriculum dimensions of Learning

What Will I Study?

- Career Development and Employability
- Financial Literacy: Budgeting and Money Management
- Making Financial Decisions
- Business and the Community
- Financial Literacy: Saving and Borrowing

Entry Requirements:

There are no specific entry requirements. The minimum age for access to the qualifications is 14 years old. For international students an IELTS score of 5.5 is required.

Method of Learning

Blended Learning and Traditional face-to-face lessons

Progression Opportunities

This qualification enables progression to further learning opportunities within mathematics study.

THE SCIENCE OF DRUG METABOLISM - PHARMACOKINETICS CPD COURSE (LEVEL 5)

CPD Certifying Body

Course Description

Pharmacokinetics is the study of how drugs interact with the body. With no prior knowledge assumed, this five modules course will teach you the core aspects of pharmacokinetics. You will learn important definitions, the four main stages of pharmacokinetics, the renal handling of drugs and factors that affect drug excretion, the effects of developmental stage, ageing and disease on drug metabolism and excretion and you will understand types of drug-drug and drug-food interactions that affect elimination of drugs.

Progression Opportunities

This qualification enables progression to further learning opportunities within pharmacokinetics study.

Entry Requirements:

This course is for professionals or students looking to build their pharmacokinetic knowledge. You might be an undergraduate pharmacy student, a postgraduate pharmacy student or a pharmacist.

Method of Learning

Blended Learning and Traditional face-to-face lessons

Apply Online: www.aisr.org.uk

Email Us: info@aisr.org.uk

Call Us: +4477-5983-1432

LEVEL 3 COURSE IN HEALTH AND SOCIAL CARE

Awarding Body

Validated Course

Course Description

This diploma has 4 different pathways and each pathway is a separate Level 3 Diploma:

- General pathway
- Dementia awareness
- Substance misuse
- Mental health

These qualifications were designed to develop the knowledge, skills and competence of those working or wishing to work in a wide range of roles in the health and social care sector. They are ideal for anyone looking to pursue a career in the health and social care industry in care roles within residential settings, domiciliary services or day care services. These courses are perfect for those looking to improve their skills to enable them to have a level of responsibility and improve their confidence and performance.

Method of Learning

Blended Learning and Traditional face-to-face lessons

Apply Online: www.aisr.org.uk

Email Us: info@aisr.org.uk

Call Us: +4477-5983-1432

Entry Requirements:

There are no formal entry requirements.

For international students an IELTS score of 5.5 is required

Progression Opportunities

The purpose of these qualifications is to support a role in the workplace with the option of learners progressing to a higher level qualification in the same subject area.

LEVEL 3 COURSE IN CUSTOMER SERVICE IN HEALTHCARE

Awarding Body

Validated Course

Course Description

This qualification is designed to provide you with the skills, knowledge and competences to operate successfully as customer service workers within a hospital setting.

Entry Requirements:

There are no formal entry requirements for learners undertaking the qualification. This qualification is suitable for learners aged 16 years or over.

For international students an IELTS score of 5.5 is required.

Method of Learning

Blended Learning and Traditional face-to-face lessons

Progression Opportunities

Progress onto higher qualifications and/or enter into employment in customer service in a hospital setting.

Apply Online: www.aisr.org.uk

Email Us: info@aisr.org.uk

Call Us: +4477-5983-1432

LEVEL 5 CERTIFICATE IN ADVANCED TEACHING PRACTICE

Awarding Body
ocn
northern ireland
Accredited Course

Course Description

This qualification relates to the National Occupational Standards for Learning and Development. The aim of this course is to improve teaching practice within the further education (FE) sector. The qualification will support the continuing professional development of those teaching and working in further and higher education and/or the adult vocational and community education sectors. The objectives of the qualification are to enable learners to:

- design and develop technology enhanced learning
- plan and deliver learning activities
- evaluate learning activities
- undertake research to improve teaching/learning

The qualification will provide learners with a range of opportunities to demonstrate practical skills in the above areas.

What Will I Study?

- Designing and Developing Technology Enhanced Learning
- Evaluating Own and Other's Teaching Practice
- Planning and Delivering Effective and Innovative Learning Activities
- Undertaking Research to Improve Learning and Teaching

Entry Requirements:

Learners must be over 19. Qualifications - learners must have:

- GCSE English and Maths (Grade C or above) or equivalent level 2 qualifications
- A recognised/regulated qualification in their subject discipline at level 4 or above.

Method of Learning

Blended Learning and Traditional face-to-face lessons

Progression Opportunities

Learners may consider progression to training qualifications at level 6 and above where they meet the entry requirements.

Apply Online: www.aisr.org.uk

Email Us: info@aisr.org.uk

Call Us: +4477-5983-1432

LEVEL 4 CERTIFICATE IN TEACHING: ADULT AND CONTINUING EDUCATION

Awarding Body

northern ireland
Accredited Course

Course Description

This course provides an introduction to teaching for those working in, or intending to work in, post compulsory education as a teacher or trainer. Learners will develop skills and knowledge to prepare them for managing classrooms and the learning environment, planning and delivering effective learning activities, including making appropriate use of technology enhanced learning, and assessing learner performance. This qualification has been mapped to the Lifelong Learning UK National Occupational Standards for Learning and Development.

What Will I Study?

- Managing the Learning Environment
- Planning and Delivering Learning Activities
- Assessing Learners and Learning
- Evaluating own Teaching Practice

Progression Opportunities

Learners may consider progression to training qualifications at level 5 and above or teaching qualifications at level 6 or above where they meet the entry requirements. Those working as part time/sessional tutors in further education may consider progression to the Ulster University's Certificate in Teaching.

Entry Requirements:

Learners must be over 19. Qualifications - Learners must have:

- GCSE English and Maths (Grade C or above) or equivalent level 2 qualifications
- A recognised/regulated qualification in their subject discipline at level 4 or above.

Exception: We may accept learners with a level 3 subject specialism where this is the highest level of qualification available.

Practice - Learners must be able to complete a minimum practice requirement of 20 hours. Learners should have in place a contractual arrangement with an organisation to deliver a programme of learning in their specialist subject to one or more class-groups. Class groups should preferably be within the range of 8-16 learners. For international students an IELTS score of 5.5 is required.

Method of Learning

Blended Learning and Traditional face-to-face lessons

Apply Online: www.aisr.org.uk

Email Us: info@aisr.org.uk

Call Us: +4477-5983-1432

LEVEL 4 CERTIFICATE IN TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES (TESOL)

Awarding Body
ocn
northern ireland
Accredited Course

Course Description

This qualification will provide an introduction to the skills and knowledge required of individuals to teach English language skills to learners whose first language is not English. Learners will develop skills and knowledge in the areas of classroom and learning environment management. In addition, they will develop skills and knowledge in planning and delivering effective learning activities, appropriate use of technology resources and the assessment of learner performance.

What Will I Study?

- Principles of Teaching English to Speakers of Other Languages
- Teaching Techniques and Lesson Plan Development for Teaching English to Speakers of Other Languages
- Language Awareness for Teaching English to Speakers of Other Languages

Entry Requirements:

Learners must be at least 19 years old and must have:

- GCSE English and Maths (Grade C or above) or equivalent
- For international students an IELTS score of 5.5 is required.

Method of Learning

Blended Learning and Traditional face-to-face lessons

Progression Opportunities

Learners may consider progression to level 5 Teaching English to Speakers of Other Languages qualifications to further enhance their skills and knowledge in this area.

Apply Online: www.aisr.org.uk

Email Us: info@aisr.org.uk

Call Us: +4477-5983-1432

LEVEL 4 CERTIFICATE IN LEADING PROJECT BASED LEARNING

Awarding Body
ocn
northern ireland
Accredited Course

Course Description

If you are teacher and passionate about teaching, this qualification will help you develop the skills and knowledge of teachers and lecturers in the use of project based learning strategies within the classroom. The course will enable you to to:

- understand the principles underpinning project based learning
- design and facilitate project based learning within the classroom
- support project based learning through the use of technology
- evaluate project based learning activities within the classroom.

What Will I Study?

- Principles of Project Based Learning
- Designing and Facilitating Project Based Learning
- Using Technology Enhanced Learning to support Project Based Learning
- Evaluating Project Based Learning

Apply Online: www.aisr.org.uk

Email Us: info@aisr.org.uk

WHY STUDY WITH US?

Value for Money

Our qualifications are designed to deliver the highest quality of education and equip you with all the necessary skills you need to excel in your chosen career. We offer a low cost alternative to full university courses, therefore you are able to achieve a degree level or master's level qualification for a fraction of the price charged by many universities, yet receive first class education. We have over 21 years experience in further and higher education.

You can significantly reduce the cost of a university degree by taking an MSU qualification as part of our University Routes. MSU programmes are validated and accredited by the government of Malaysia and offered under license from MSU to AISR. MSU is one of the top 541 Universities in the world (out of over 28,000 universities worldwide) and all their undergraduate and postgraduate qualifications are recognised in the UK as UK NARIC has signed an MoC with the Malaysian Qualifications Agency. All students will have the opportunity to travel to Kuala Lumpur, Malaysia for the graduation ceremony. What an excellent opportunity!!!

Flexible Learning

We offer flexible qualifications, so you can find balance between work, study and other commitments. The length of most of our programmes are one year long diploma/certificate courses which can act as stand-alone qualifications, or can build upon each other to lead to a degree or master's level qualification.

HOW TO APPLY

You can apply online by filling out our online registration form by [clicking here](#)

We make sure that you are registered and enrolled to a right course by carrying out pre-enrollment vocational screening. Should you have any questions about the course content, fees and entry requirements, please contact the Academy:
